An Owensboro man is preparing to organize a circus and go on the road.

VICE-PRESIDENT Stevenson was in Louisville last week on his way to Ten-

The youngest member of Congress is Thomas Settle, of North Carolina, who is twenty eight.

The Owensboro Messenger says one thousand women of that city have pledged thomselves to fight against the saloons.

Something like a panic struck a number of banks last week in Ohio and Indiana. A number of them closed and failed to pay depositors.

THE people of Owensboro raised \$4,500 during Sam Jones' meeting. They paid for their new tabernacle and donated over \$2,000 to the Evangelist.

A LATE dispatch from Washington says there is soon to be a clean sweep of all Republican office holders not protected by the Civil Service law.

The National League of Republican Clubs was largely attended in Louisville last week and adjourned after a pleasant and profitable session of two days.

The Republicans had quite a gay old time in Louisville last week, speechifying, exhorting, resoluting and so on, but not a mother's son of 'em were exactly able to tell "where they were at" last November.

The Chicago directory of the World's Fair have decided to open the Fair grounds on Sunday. The State buildings are to remain closed and only twenty-five cents admission to the grounds will be charged.

The Hawesville Plaindealer says that fifty-seven Hancock county men have asked to be given places in the Revenue Service under the Democratic Collector at Owensboro whenever that Collector is appointed.

Judge William Lockren, of Minnesota, the new Commissioner of Pensions, took charge of the Pension Bureau jast week and some great reforms are promised the country in that branch of the Government service. God knows, it is needed.

A MAJORITY of the Sinking Fund Commissioners have decided that the convic labor of the State can not be temporarily teased. The convict labor question is ment and commotion amongst a set of about who don't seem to know anything fellows the matter whatever.

PRESIDENT Cleveland's latest order to the office seekers is that they have occupied his time long enough and that he will not give any of them a personal interview. Those going to Washington now must be content with presenting their claims to some of Mr. Cleveland's subordinates and not to Mr. Cleveland hims-lf, because he says he has fooled away enough time with the office seekers and must now get down to business.

Sam Loyd, the mathematician and author of the famous "15 Puzzle" is said to have discovered the presence of the "Wolf" in simple addition, as in music, and has woven the principle into a little puzzle for the explanation of which a Mason & Hamlin Organ is offered. As mentioned in our advertising columns the mathematical mystery is being sold for the benefit of the Press Club Building and Charity Fund for one dime.

The latest in regard to the Revenue Collectorship in the Second Kentucky District, telegraphed from Washington is as follows: "The fight is a three-cornered one, the leading candidates being Mr. Powers, Mr. Randle and Mr. Dempsey. Senator Blackburn and Congressman Ellis have indorsed Mr. Dempsey and Congressman Stone indorsed Mr. Randle. Mr. Powers is the best indorsed man, however, so far as the business portion of the district is concerned; in fact he is the most hadsomely indersed of any man for any position in the gift of the President. He has on file in the Treasury Department five hundred personal letters of the leading business men and Democrats from his District. One familiar with the situation is strongly inclined to believe that Mr. Powers will be appointed. As to the District Attorney's place, it is said that should Mr. Jolly resign now Mr. H. H. Smith would undoubtedly be chosen as his successor, though the President makes way to give Charley Bronston the place.

#### Neglected Graves.

There may be somewhere in the world a drearier spot than a neglected grave vard, but if so I have never seen it and I hope I never will. There is nothing about a neglected grave to interest a visitor. The weeds choke out what few flowers loving hands have planted. Contrast this with nicely kept grounds, with monuments and tombstones. It is gratifying to look at the memorials and call back the good deeds of those who sleep last sleep in these beautiful grounds. Now, I do not want to dictate. but I suggest that there are parties who have dear ones lying in the cemetery without a mark or flower to their grave, and to be just to those who accumulated their means, it is a duty to keep their graves green and marked, that strangers may know who lies there. Now, anyone wanting to mark the grave of a dear one should come to our shop. We have just received eighteen blocks of granite and fourty-four pieces of marble direct from the quarries at the very lowest price that such material can be produced. So we, doing our own work, can furnish monuments and tombstones for less money than any firm in the state. All parties are well pleased with our work. Many thanks to the public for their liberal patronage.

#### What Is Home Without The Breckenridge News ?

J. D. Babbage.—Kind Friend.—On Nov. 1st, 1892 I left McKinney, Texas, and wrote you a postal card telling you to stop my paper until I settled. I have decided to make this place my home for a year or two, but don't feel at home yet. One thing is lacking, and that is the BRECKENRIDGE NEWS. So please send my paper to Houston, Congress street, No. 1,020. No news of interest, only we 1,020. No newr of interest, only we are having warm weather. It seems strange to hear of the cold weather you are having I haven't seen any ice this winter. You can get any kind of vegetable here any month in the year. I am bound to say I like this state, but I will always call old Kentucky my home. Give my love to all of my friends, especially to V. G. Babbage. Tell him to write to a fellow.

beautiful residences, so I am not posted in the "going ons" of the week. Pilgrimages arriving in the Falls City this spring found many improvements and changes in progress. The number of handsome residences erected, the magnificent Custom House, new club buildings, fine business houses, etc., will attract especial admiration, St. James' Park, with its elegant homes, with an increasing influx; Central Park, so inviting; Cherokee Park, coming on, not to mention many other attractions. But the water works, beautiful grounds, lovely reservoir, stand head and front of all her aggressive work. The solidity of that massive structure of iron and stone alone speaks volumes for a city that is dubbed "old fogy, and behind the times' by the puffed up White City. The pleasure of my visit was much enhanced by meeting a number of old friends of long, long ago. No friendship so lasting, no ties so sweet as those of our early days, when hearts were light and free and when we did not realize what an earnest awful world we live in, with a whole eternity awaiting us. How wise that none of us can cast a horoscope of the future and how kind in our Father that one chapter in our lives is devoted to pure, genuine, unalloyed happiness. We never forget the flowers of those pages in after life when thistles spring up in their

CLOVERPORT, KY., May 15, 1893 -On returning to Cloverport and Breckenridge county after an absence of thirty-two years I find Cloverport much changed A railroad through the central street, with its rushing trains and noisy whistle, passing so near the Baptist and Metho dist churches that once nestled so peacefully and quietly under the hill, and many pretty houses of modern architecture. Nature has given Breckenridge county rare natural grandeur and loyliness, with high hills, deep ravines, pebly brooks high cliffs and numerous water falls,

While visiting my old home on Clover creek I enjoyed again the beauties of nature that abound in that loved spot. The old mill is gone, but the same rocks with the mortar where the Indian maiden pounded her corn for the evening meal is there yet. I called up the doodle bugs the same as in my childhood. The well kept cemetery on the hill, the white stone gleaming in the sunshine, told me their luck at the races. They just forgot that there my sister Sarah was buried August 29th, 1849. I felt like calling,
